

## ENVIRONMENTAL POLICY

Almetron Ltd is a 14001 accredited company and incorporates environmental management and responsible stewardship as an integral part of its operations. This policy and commitment is incorporated in our integrated management system which encompasses the **ENVIRONMENT, HEALTH, SAFETY and QUALITY**.

### SCOPE

Our environmental policy applies to all aspects of Almetron's business including the manufacturing processes, our design, formulation and application of products, commercial and technical support services, distribution services, purchasing of raw materials and recycling wherever possible to reduce waste.

### COMMITMENT – Almetron Limited is committed to;

- Complying with all relevant legislation and beneficial practices which bring improvement to and offer long term protection of the local and global environments in which it operates, preventing pollution.
- Developing and promoting best quality products fit for purpose with zero or minimum environmental impact.
- Promotion of environmental awareness amongst all company members, suppliers and customers.
- Using suppliers who communicate and demonstrate understanding, competence and commitment to good quality, environmental and ethical practice through their EMS.
- The continual improvement of our management system EMS to improve and enhance environmental performance by reducing emissions, minimising waste and optimising the use of natural resources.
- Having an open and fully visible approach in dealing with representatives of the local community, regulators, customers and other organisations which have an interest in the company's environmental performance. Commercially sensitive information will not be issued to such parties.
